

NEUTRALIZES ALL ODORS AND IS COMPLETELY ORGANIC INCLUDING AMMONIA IN POULTRY LITTER AND NOXIOUS VOC'S FROM LIVESTOCK MANURE AND URINE

NOTHING DOES IT SAFER OR MORE EFFECTIVELY!
FOR HEALTHIER & MORE PROLIFIC ANIMAL PRODUCTION

For use in and around livestock & poultry house structures, open yards, swine houses, cattle barns, calf hutches, loafing barns, horse stables and pet kennels. For Initial Treatment: Apply product by use of Spreader or other suitable equipment. Apply evenly at a rate of 25lbs. per 1,000 sq. ft.

Results are Cumulative and Sustainable

After initial three treatments, reduce to 10lbs. per 1,000 sq. ft. applied evenly to entire floor area. Repeat treatments to maintain adequate odor control. Applications are permitted prior to animal's move into housing and while animals are present, including midflock, while birds are present.

HOME USE: Vacuum up the Pesto Odor Control, along with the noxious chemical residue from toxic solvent cleaning products, found in and on carpets and pet bedding. Use in Kennels, Poultry Coops, on Manure and Urine, then use as a beneficial Soil Enhancer. Trace mineral content of this Pesto Odor Control, makes it a "natural" fertilizer.

BENEFITS OF USE

- *Highest odor and VOC absorption rate for commercial and agricultural use*
- *Excellent for large and small poultry farms, as well as livestock raising*
- *Friendly to the stock, workers and environment*
- *Compatible with Pesto pesticides*
- *Absorbs up to 90% of harmful, noxious odors and volatile organic compounds*
- *Reduction of harmful ammonia odor and VOC's benefits animal health and overall facility safety*

US EPA REGISTERED & REGISTERED USDA NATIONAL ORGANIC PROGRAM

- *Crop Protection Aid*
- *Disease and Pest Control*
- *Fertilizer and Soil Amendment*
- *Livestock Production Aid*
- *Processing and Handling*
